Members Plan for their Future in Phoenix

Are you saving enough for retirement? When can you retire? What is the best way to invest your money? How does my 401k work? About 40 members and non-members from New Mexico and Arizona cable operators and programmers attended the “Planning for your Future” workshop to work on the answers to these and many more retirement related questions.

Anna O’Connell, Vice President at Merrill Lynch in Albuquerque New Mexico, presented alot of food for thought. With a financial calculator in hand, Chapter members were able to create a picture of where they are financially and estimate what they will need to continue to

save to reach their retirement goals. Many were surprised by the results and committed to continue working on their financial goals. A big **THANK YOU** goes to our event sponsor, NBC Universal!
